

Reference Exam (Mixed Questions)

Question 1: What is the capital of Germany? (MCQ)

A) Berlin

B) Paris

C) Madrid

D) Rome

Reference Answer: A) Berlin

Question 2: Solve for x: $3x - 9 = 12$.

Reference Answer: $x = 7$. Explanation: Add 9 to both sides ($3x = 21$), then divide by 3.

Question 3: Explain the water cycle in brief.

Reference Answer: The water cycle involves evaporation, condensation, and precipitation.

Water evaporates into vapor, forms clouds through condensation, and falls back to the earth as precipitation.

Question 4: Write a short story about teamwork.

Reference Answer: The story should highlight the importance of teamwork in achieving goals.

For example, a team of students working together on a project to win a competition.
